

Mist-A-Fier™ Wall Mounted Humidifier

- **Completely Self Contained**
- **Operates on High Pressure Water**
- **No Electric Heating Elements**
- **Uses less than 34 watts**
- **Treated or Un-treated water**
- **Low Maintenance**
- **Constructed of High Grade Stainless**
- **Patented Distribution System**
- **Ideal For Low Ceiling Applications**

Mee Industries Mist-a-Fier™ wall mounted self-contained room humidifier offers the lowest operating cost of any room humidifier on the market. The use of high pressure to atomize the water into billions of fine particles provides quick absorption and close control, while using the least amount of energy.

The Patented mixing of the air and water creates optimum unit efficiency and prevents moisture fall out. The air distribution fans provide quiet, low velocity distribution of the moisture into the conditioned space.

Mee Industries Mist-a-Fier™ ARP-30 Technical Data

Nominal 30#/hr output at 1000 psi input pressure

120 volts, 34 watts, 6' grounded power cord

3/8" FNPT Inlet Connection ~ 1/2" FNPT Drain Connection

Weight 40 # ~ Dimensions 24" W x 17" D x 14" H

Options: Drain Sump Pump, High Pressure Pump, Controls, Mounting Brackets
