MeeFog™ Pump Unit: Model Mini-Mee
For Small Applications

What it does:
The Mini-Mee is designed as a full-featured, industrial quality, but low-cost fog pump for small applications. The Mini-Mee is energy efficient, and uses only 3% of the energy of compressed air atomizers.

Features:
- Direct drive 1000 psi pump.
- Inlet pressure switch to protect pump from running dry.
- Sub-micron water filter to ensure nozzles stay clean.
- UL certified enclosed 508 industrial control panel.
- Compact frame mounted system.
- Optional humidity controller with remote sensor.
